SC SEEDSMEN'S ASSOCIATION Supports Collegiate Agricultural Scholarships

The SC Seedsmen's Association has established a college scholarship program to support students that are majoring in agriculture at Clemson University. The scholarship program is designed to financially support our next generation of agricultural leaders. All proceeds go annually to fund a scholarship for students enrolled in the College of Agriculture at Clemson University.

Show your support for the next generation of agricultural leaders by making a contribution today! The convention registration form has a line where you can enter the amount of your contribution. Thanks for supporting SC agriculture!
